You can share your photos or information regarding the fishing which may be of interest to other keen fishing guests to our email address: [wispymeadownorfolk@gmail.com](mailto:wispymeadownorfolk@gmail.com)

### **Wildlife and Wispy Meadows**

With a lake as large as the one at Wispy Meadows and the peaceful undisturbed countryside, wildlife is inevitably attracted to the site. We have resident Ducks, Geese and Morhens, all of which have been busy raising their young through the summer. Many guests have sighted our resident Kingfisher, as well as a Red Legged Partridge and an Oyster Catcher.

### **The New Lake and Boathouses**

Work has continued throughout the summer to build the new lake and boathouses. Large sandstones have been installed to form part of the large waterfall that will cascade down between the new boathouses. The lake itself has been left to fill naturally and is now nearly full.
